O'Hare International Airport Airfield Tour Reception

Sponsorship Opportunity

The tour reception has been a memorable “unofficial” closing to Airports Going Green in years past, and allows conference participants to enjoy the fantastic food and award-winning hospitality that O’Hare has to offer. We would like to continue this tradition with an in-kind sponsorship which includes hosting conference attendees for food and drink at the culmination of the O’Hare Airfield Tour taking place on Wednesday, November 4th. The sponsor will coordinate the event set-up and take down, as well as provide food and drink for 125-200 people. Final event location and time will be coordinated with the CDA.

Sponsorship Recognition

Your generous sponsorship will guarantee recognition from industry leaders attending the conference. You are encouraged to include signage and branding at the tour reception, and your company logo will also be displayed on the following conference materials:

- SEF check presented to Chicago Mayor, Rahm Emanuel on Monday, November 3rd
- Official Airports Going Green Conference App
- Rolling PowerPoint being displayed in main event room throughout the duration of the conference
- Airports Going Green website
- AAAE website

Sustainable Education Fund Contribution

The Airports Going Green Sustainability Education Fund (SEF) is a collaborative effort among the Chicago Department of Aviation, the American Association of Airport Executives, One Million Degrees (OMD), and a continuously growing network of generous sponsors; all with a common goal to promote education and sustainability. The SEF provides opportunities to advance student education through academic scholarships at City Colleges of Chicago. Scholarships are awarded to eligible students pursuing studies in sustainability and related fields.

As a part of the in-kind sponsorships, companies are required to make a donation to the SEF.

Through this minimum Silver Level Donation (\$1,500), sponsors will receive (1) complementary pass to the AGG Conference (valued up to \$825).

For more information on the SEF, please visit <http://airportsgoinggreen.com/sef.aspx>.

Airport Going Green Conference

The Airports Going Green Conference (AGG) is the industry's leading sustainability forum, bringing together aviation sustainability leaders, experts, and innovators. The conference features key discussions with airport business partners, FAA leadership, and top level speakers representing airports from across the globe.

Over 400 conference attendees attended the 2013 conference and we expect those numbers to grow as we continue to revolutionize the conference with world-renowned speakers, exciting agenda topics, and new and innovative conference experiences. As such, we have included several in-kind sponsorship opportunities, independent from the traditional AAAE conference sponsorships.

Hosted by the City of Chicago Department of Aviation (CDA) and the American Association of Airport Executives (AAAE), the 7th Annual Airports Going Green Conference will take place November 3 - 5, 2014, at The Westin River North in downtown Chicago, Illinois. For more information, please visit www.airportsgoinggreen.com.

Airports Going Green has developed into the premier aviation sustainability conference in the world and we hope that you will continue to enhance the attendees experience by accepting this exclusive sponsorship opportunity.
